

HNE MFU 50-150

**MOTORIZED
FIREFIGHTING**

The **MFU 50-150** is a motorized high-performance firefighting system for installation on vehicles like pick-up trucks or small transporters.

Being powered by a petrol engine the pump reaches an extremely high throwing range and a very high flow rate.

The system is designed for operation by a single person.

TECHNICAL SPECS	MFU 50-150
Throwing Distance	up to 32 m
Foaming Distance	up to 10 m
Flow Rate	40-130 l/min
Max. Performance (Pump)	150 l/min at 50 bar
Working Pressure	50 bar
Gasoline Engine	2-Cylinder / 4-Takt, 627 ccm
Engine Power	23 PS (hp) at 3600 r/min
Gas Tank Volume	7,5 l
Foam Tank Volume	25 l
Max. Suction Height	app. 2,5 m
Range of Temperature	5°C to 50°C
Weight (empty)	app. 240 kg
Height	68 cm
Width	120 cm
Length	103 cm
Hose Length	30 m
